

## 2 Math

---

### Solve the Word Problems:

**Example:** Roshan had Rs.175.00 with him. His elder brother gave him Rs.210.50.  
How much money does he have in all?

**Solution:** Amount of money Roshan had = Rs175.00.

Amount of money given by his elder brother = Rs 210.50.

Total amount of money he has now= Rs 175.00 + Rs 210.50  
= Rs 385.50.

	Rs	P
	175	. 00
	+ 210	. 50
	<u>385</u>	<u>. 50</u>

**Q1. Do Worksheet no.3 in your Maths workbook.**
